2.About Us

Our Mission

To provide premium, elite security solutions built on the pillars of proactive deterrence, rigorous accountability, and expert conflict de-escalation. We deploy only fully qualified, SIA-licensed professionals who operate strictly within UK security compliance standards to protect your assets and eliminate corporate risk.

Company Overview

At **Fortress Asr Security**, we recognise that modern security requires more than just a physical presence—it demands intelligence, professionalism, and strict regulatory compliance. We specialise in providing highly trained security guards and professional door supervisors to businesses looking for elite defense. Every officer we deploy is fully vetted to **BS 7858**, SIA-licensed, and comprehensively qualified. By blending reliable documentation with elite situational communication, we bridge the gap between absolute physical security and corporate liability protection.

3. Our Core Services

Manned Guarding & Door Supervision

Provide your premises with a commanding, professional visual deterrent. Our fully licensed, SIA-approved security guards and door supervisors are trained in elite situational awareness, crowd management, and customer-facing diplomacy. Our operations conform strictly to **BS 7499** (Static Site Guarding), **BS 7960** (Door Supervision), and **BS 10800** (Provision of Security Services).

Construction Site Security

Protect high-value equipment, materials, and machinery from vandalism and theft. We deploy specialised static guards who strictly adhere to **BS 7499** regulations, establishing rigid perimeter control, and maintaining accurate visitor logs to keep your project moving safely and on schedule.

Mobile Patrols

Cost-effective security for larger perimeters or multiple locations. Conducted by qualified SIA-licensed drivers, our mobile units conduct unpredictable, highly visible security sweeps and check-calls in

perfect conformity with **BS 7984-3** (Provision of Mobile Security Services).

Key Holding & Alarm Response

Eliminate the risk to your employees by leaving out-of-hours emergencies to SIA-approved experts. Operating in strict compliance with **BS 7984-1** (Keyholding and Response Services), our guards securely manage your keys, respond instantly to activations, and conduct thorough site checks.

Reception & Concierge Security

The perfect fusion of elite customer service and corporate front-of-house safety. Handled exclusively by fully qualified guards working under the overarching **BS 10800** security management framework, we manage access control and greet clients with absolute professionalism.

4. Why Choose Us? (The Fortress Advantage)

To ensure maximum transparency, we build our client relationships on three uncompromising standards:

Feature	What It Means for Your Business
SIA-Approved & Vetted	Every professional on your site is fully qualified, legally licensed, and rigorously vetted to the BS 7858 security screening benchmark.
Conflict De-Escalation	Personnel are expertly trained to defuse high-tension scenarios calmly and legally, protecting your workplace while keeping your legal liability at zero.
British Standard Compliance	All operations strictly follow sector-specific codes of practice (BS 7499, BS 7960, BS 7984, BS 10800), guaranteeing premium operational standards.
